### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the claims as supported by the specification differs from the prior art in that it does not disclose, teach or suggest a method of laser drilling that specifically includes directing the laser beam such that the beam follows a path on at least one side of the hole to drill a diffuser section on at least a beam entry side of the hole with the beam exiting the hole substantially without interference with a remaining non-diffuser part of the hole, wherein the diffuser section is cut with a generally elongated opening on the beam entry side of the hole, with the beam being inclined with respect to a longitudinal axis of the hole, and with the beam being inclined with respect to an elongate axis of the opening being formed on the beam entry side of the wall such that the beam is directed substantially wholly into an interior of the hole as the beam passes there through.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Alexandra Elve whose telephone number is 571-272-1173. The examiner can normally be reached on 6:30-3:00 Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on 571-272-1171. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
